CREATING BETTER

Optimised LED technology
for fastest fly catch

Genus® | COBRA LED

Efficient | Sustainable | Cost-effective

#EngineeredWithTrust

Experience the world's **fastest fly trapping technology** — the **Genus® LED Range** — perfected through over **8,000 tests** and over **530 prototypes**, and a **70-year-old legacy** of **creating better**.

Genus® | COBRA LED

Superior Performance Meets Improved Sustainability

35% faster fly catch within 60 minutes as compared to the Genus® Cobra Fluorescent

More than double the fly catch within 60 minutes as compared to LED competitors

69% reduction in running costs as compared to the Genus® Cobra Fluorescent

Unique technology for faster and higher fly catch

Translucent Technology™ provides a 180° window of attraction

Competitor units provide only a 90° window of attraction

Genus® Cobra LED Fly Catch Performance*

*All tests conducted in a controlled laboratory environment using varied strains of flies. *Field data has shown faster catch rates and a significantly wider variety of fly species being caught as compared to Genus® Cobra Fluorescent. *Test data also available for fruit flies on request.

**The performance of Genus® LED units was better in a real world environment as compared to a controlled environment. **Based on tests conducted in a commercial kitchen.

Reduction in Energy Consumption and Carbon Emissions

Driven to achieve sustainability targets

The Genus® Cobra LED is in line with **UN Sustainable Development Goals**.

The unit enables a 69% reduction in energy consumption and is already compliant with SDG goal 7.3, as against the UN timelines of 2030.

With its ability to reduce carbon emissions, it also plays a part in achieving SDG goal 13 for Climate Action.

A product ahead of it's time!

Areas of Application:

Restaurants & Cafés | Food Processing Plants | Supermarkets & Retailers | Hospitality Sector | Office Spaces | Hospitals & Laboratories
